Notification Waiver Determination

Centerbridge Partners – Ebury Partners Limited

Acquisition	CB Victoria Lux S.à r.l., a special purpose vehicle which is ultimately controlled by investment funds managed by Centerbridge Partners, L.P. (**Centerbridge**), applied for a notification waiver in respect of its proposed acquisition of an additional interest in Ebury Partners Limited (**Ebury**), as described in the transaction documents provided as part of the application (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the *Competition and Consumer Act 2010* (Cth) that the Acquisition is not required to be notified.
Date of determination	21 July 2026

Parties to the Acquisition	The acquirer, Centerbridge, is an investment management firm, investing in companies globally. Centerbridge employs a flexible approach across investment disciplines – from private equity to credit and related strategies, and real estate – in an effort to find the most attractive opportunities for its investors and business partners. The target, Ebury, is a cross-border foreign exchange (**FX**) and payments platform serving companies that transact internationally, principally supporting them with payments in different currencies (spot FX) and currency risk. It is currently majority controlled by Banco Santander, S.A. (**Santander**). Post-acquisition, Ebury will be jointly controlled by Santander and Centerbridge.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the **ACCC**) has considered the information provided with the notification waiver application, and had regard to the factors in section 51ABV(2)(b) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a) there is no horizontal overlap between the parties (or their connected entities) in the supply of business-to-business international payment or foreign exchange services in Australia b) there are alternative suppliers of business-to-business international payment or foreign exchange services in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met.

	Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
