Notification Waiver Determination

Envest Group – MA Insurance Brokers

Acquisition	PSC Transport Insurance Brokers Pty Ltd (**PSCT**), which is a wholly owned subsidiary (indirectly) of The Envest Group Pty Ltd (**TEG**), applied for a notification waiver in respect of its proposed acquisition of the business and assets of MA Insurance Brokers Pty Ltd (**MA**), as described in the transaction documents provided as part of the application (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the *Competition and Consumer Act 2010* (Cth) that the Acquisition is not required to be notified.
Date of determination	18 June 2026

Parties to the Acquisition	The acquirer, TEG, is an insurance and financial services distribution group. Through its wholly and partially owned subsidiaries, TEG is active in Australia and New Zealand in the supply of underwriting products and services as managing general agents, insurance broking services, wealth management and financial planning products and services, and adjacent and ancillary services such as Insurtech (technology to support the insurance industry), claims management, workers compensation consulting and trade credit risk. TEG is part of the Ardonagh Group which is a UK based independent insurance distribution platform and a global independent broker. The target, MA, is a self-licensed general insurance broker. MA is based in Brisbane, but services clients across Australia. MA brokers a range of insurance products including general liability, management liability, professional indemnity, directors and officers, property insurance, workers compensation, plant and machinery, marine insurance and business insurance, but is specialised in commercial motor insurance (and related insurance classes). The parties both supply general insurance and commercial motor insurance broking services in Australia.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the **ACCC**) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular:

	a. the parties' combined share of supply of general insurance broking services in Australia, including for commercial motor insurance, is estimated to be low and the increase in share arising from the Acquisition would be small b. there are several alternative suppliers of general insurance and commercial motor broking services in Australia. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
