Notification Waiver Determination

KKR – Integer

Acquisition	Armstrong Bidco, Inc. (**Bidco**) applied for a notification waiver in respect of its proposed acquisition of **[Redacted - Confidential]** [a majority] of the equity interests in Integer Holdings Corporation (**Integer**), as described in the transaction documents provided as part of the application (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the *Competition and Consumer Act 2010* (Cth) that the Acquisition is not required to be notified.
Date of determination	13 October 2026

Parties to the Acquisition	The acquirer, Bidco, is a special purpose vehicle indirectly majority owned by investment funds, vehicles and/or accounts advised and managed by various subsidiaries of KKR & Co. Inc. (together with its subsidiaries, **KKR**). It has no operational activities and was incorporated for the purpose of merging with and into Integer, with Integer remaining the surviving entity. KKR is a global investment firm that offers alternative asset management as well as capital markets and insurance solutions. The target, Integer, is a medical device contract development and manufacturing organisation (**CDMO**) that provides outsourced medical device development, manufacturing, and related services primarily to original equipment manufacturers in the medical device industry. Integer's CDMO activities include the design, development, manufacturing, testing, packaging, labelling, storage, handling, distribution, marketing, and export of medical devices. Integer does not have a physical presence in Australia and its only activity in Australia is sales.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the **ACCC**) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a. there is no horizontal overlap between KKR and Integer in the supply of medical device contract development and manufacturing services in Australia

	b. there is a low risk of foreclosure or other concerning vertical effects resulting from exclusionary conduct post-acquisition. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
