

Supagas – Heeson Medical

MN-80027

Phase 1 Determination

Acquisition may be put into effect

8 September 2026

1. Determination and statement of reasons

Notified acquisition	Supagas Pty Limited (Supagas) proposes to acquire substantially all of the assets held by Heeson Medical Pty Ltd and Jacobba Pty Ltd (together, Heeson Medical) (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABZE(1) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition may be put into effect.
Parties to the Acquisition	Supagas, is a wholly owned subsidiary of Nippon Sanso Holdings Corporation, which is part of the Mitsubishi Chemical Group. Supagas is a national producer and supplier of LPG as well as a producer and supplier of some industrial gases, which are used in industrial, commercial, medical and residential applications. Supagas' immediate parent company, NSC (Australia) Pty Ltd, also owns Coregas Pty Ltd (Coregas). Coregas is a national producer and supplier of compressed industrial gases and cryogenic liquids across a range of sectors, including some medical gases. Heeson Medical is a Brisbane-based business specialising in the supply of medical gases (mainly oxygen) and related equipment and accessories for domestic use, veterinary clinics, small medical clinics and aged care centres located within the South East Queensland and northern New South Wales regions.
Overlap and relationship between the Parties	Supagas and Heeson Medical overlap in the supply of medical gases and associated equipment in South East Queensland and Northern New South Wales. Coregas, a related entity of Supagas, supplies medical gases to Heeson Medical.
Reasons for determination	When making a determination in Phase 1, the Australian Competition and Consumer Commission (ACCC) undertakes a competition assessment and considers whether it is appropriate for an acquisition to be approved or subject to further assessment in Phase 2 in accordance with section 51ABZJ of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). In doing so, the ACCC must have regard to the object of the Act and all relevant matters, including the interests of consumers. For more information about the ACCC's approach to considering notified acquisitions, see the ACCC's merger assessment guidelines and interim merger process guidelines. In conducting its competition assessment, the ACCC has considered the information and documents that were submitted with the notification form and information from third parties, market share data, information from prior matters and publicly available information. The ACCC has determined that the Acquisition may be put into effect as it considers that the Acquisition would be unlikely to have the effect of substantially lessening competition in any market. In reaching its decision, and based on the material before it, the ACCC makes the following findings. • Heeson Medical is a relatively small supplier of medical gases

	and associated equipment in South East Queensland and Northern New South Wales. • Supagas would likely continue to face competition, including potential competition through expansion, from alternative suppliers of medical gases (including medical oxygen) and associated equipment in South East Queensland and Northern New South Wales.
Applications for review	A notifying party, or other person who has been allowed to do so by the Australian Competition Tribunal, may apply for review if they are dissatisfied with the determination. Pursuant to section 100C of the Act, applications for review of the determination are to be made to the Australian Competition Tribunal before the end of 14 calendar days after this statement of reasons was included on the ACCC's Acquisitions Register. To confirm whether there has been any application for review, please contact the Australian Competition Tribunal.

Determination made by a division of the Commission constituted by a direction issued pursuant to section 19 of the Act
