

Notification Waiver Determination

AUB – further interest in KJ Risk

Acquisition	Austbrokers Corporate Pty Ltd (trading as AUC), a directly and wholly-owned subsidiary of AUB Group Limited (AUB), applied for a notification waiver in respect of its proposed acquisition of 43% of the issued share capital in KJ Risk Group Pty Ltd (KJ Risk), as described in the transaction documents provided as part of the application (the Acquisition). As part of the Acquisition, AUB will transfer its existing 49% interest in KJ Risk to AUC. On completion, AUC will hold 92% of the issued share capital in KJ Risk, with the balance retained by Niven Industries Pty Ltd, as trustee for the Niven Industries Trust, which is the existing majority shareholder.
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	1 June 2026

Parties to the Acquisition	The acquirer, AUC, is a wholly owned subsidiary of AUB. AUB is an ASX200 global insurance broking group with a portfolio that includes General and Specialist Retail Brokers, Authorised Representative and Broking Networks, Managing General Agents and Underwriting Agencies, Wholesale Brokers, InsurTech platforms, and specialist Claims and Loss Adjustment services. The target, KJ Risk, is an Australian risk management intermediary business. KJ Risk's primary activities relate to discretionary mutual fund (DMF) services, including DMF broking and management services. KJ Risk also supplies general insurance broking services, including corporate and private client broking and workers compensation consulting services. KJ Risk operates as an integrated member of AUB, conducting its business exclusively within the AUB network and under the AUB brand, governance and operational framework. AUB and KJ Risk overlap in the supply of general insurance broking services in Australia.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act).

	Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a. there is a small horizontal overlap between AUB (and its connected entities) and KJ Risk in the supply of general insurance broking services in Australia b. there are alternative suppliers of general insurance broking services to customers in Australia c. except for AUB's existing interest in KJ Risk, AUB (and its connected entities) does not supply DMF broking or management services in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
