

Lone Star Funds - ContiTech

MN-85043

Phase 1 Determination

Acquisition may be put into effect

18 September 2026

1. Determination and statement of reasons

Notified acquisition	SCUR-Alpha 2068 GmbH (SCUR), an indirect subsidiary of Lone Star Fund XIII, L.P. and its affiliates (Lone Star Fund XIII), proposes to acquire ContiTech Deutschland GmbH (ContiTech) (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABZE(1) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition may be put into effect.
Parties to the Acquisition	The acquirer, Lone Star Fund XIII, is one of the private equity funds (the Lone Star Funds) organised and advised by Lone Star Global Acquisitions Ltd (Lone Star). XSYS Germany GmbH (XSYS) is a Lone Star Funds-controlled portfolio company, headquartered in Germany, active in the supply of solutions for the commercial printing industry. In Australia, XSYS is active in the supply of analogue printing plates mounting hardware, comprising sleeves, adapters and cylinders used to mount analogue printing plates. The target, ContiTech, is a provider of engineered rubber, thermoplastic and fabric technology solutions to customers in a range of industries. This includes the supply of analogue printing plates mounting hardware. ContiTech operates in Australia through its Australian subsidiaries ContiTech Australia Pty Ltd, Veyance Technologies Australia Pty Ltd, and Vulcanite Holdings Pty Ltd (and its operating subsidiary Vulcanite Pty Ltd).
Overlap between the Parties	XSYS and ContiTech overlap in the supply of analogue printing equipment, specifically analogue printing plates mounting hardware in Australia. There is no other material overlap between the activities of ContiTech in Australia and the activities of any of Lone Star Funds' connected entities.
Reasons for determination	When making a determination in Phase 1, the Australian Competition and Consumer Commission (ACCC) undertakes a competition assessment and considers whether it is appropriate for an acquisition to be approved or subject to further assessment in Phase 2 in accordance with section 51ABZJ of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). In doing so, the ACCC must have regard to the object of the Act and all relevant matters, including the interests of consumers. For more information about the ACCC's approach to considering notified acquisitions, see the ACCC's merger assessment guidelines and interim merger process guidelines. In conducting its competition assessment, the ACCC has considered the information and documents that were submitted with the notification form and publicly available information. The ACCC has determined that the Acquisition may be put into effect as it considers that the Acquisition would be unlikely to have the effect of substantially lessening competition in any market. In reaching its decision, and based on the material before it, the ACCC finds that there would continue to be alternative suppliers of

	analogue printing equipment in Australia, providing effective competitive alternatives to Lone Star Funds' controlled entities.
Applications for review	A notifying party, or other person who has been allowed to do so by the Australian Competition Tribunal, may apply for review if they are dissatisfied with the determination. Pursuant to section 100C of the Act, applications for review of the determination are to be made to the Australian Competition Tribunal before the end of 14 calendar days after this statement of reasons was included on the ACCC's Acquisitions Register. To confirm whether there has been any application for review, please contact the Australian Competition Tribunal.

**Determination made by Commissioner Williams pursuant to a delegation under section 25(1)
of the Act**
