

Notification Waiver Determination

IK Partners - Selatek

Acquisition	Goldcup 39483 AB (under name change to Prometheus BidCo AB), a company controlled by IK Partners (IK Partners), applied for a notification waiver in respect of its proposed acquisition of all of the shares in SELATEK Holding AB and its subsidiaries (Selatek), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	27 May 2026

Parties to the Acquisition	The acquirer, IK Partners, is a European private equity firm which invests primarily across Northern Continental Europe. Its portfolio companies operate across a range of different business sectors. The Wendel Group, a French investment firm, has a majority shareholding in IK Partners. The target, Selatek, is a Swedish company that operates across three core business areas: Electrical, Automation and Security. Selatek's subsidiaries are active primarily as consultants, installers and suppliers within the electrical engineering and building services sector, as well as in the construction, servicing and installation of automation and security solutions. Selatek's only subsidiary with sales to Australia is Deltatec AB (Deltatec). Deltatec is a Swedish company which supplies limited programming services of control systems involving water and sanitation engineering services in Australia.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: - there is no or limited horizontal overlap and no vertical relationship between IK Partners and Selatek (including their connected entities) in Australia - Selatek has a small presence in Australia.

	The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
