

Notification Waiver Determination

Movac - Advanced Navigation

Acquisition	Movac Growth Fund 7 Custodial Limited as trustee for Movac Growth Fund 7 Limited Partnership (Movac Fund) applied for a notification waiver in respect of its proposed acquisition of a small shareholding in Advanced Navigation Pty. Ltd. (Advanced Navigation), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	26 August 2026

Parties to the Acquisition	The acquirer, Movac Fund, is managed by Movac Growth Limited, which is associated with Movac Limited (Movac). Movac is a venture capital firm based in New Zealand that through its funds primarily invests in New Zealand or New Zealand-connected early-and growth-stage technology companies. Movac has a focus on investments in the Software-as-a-Service and deep tech sectors. It also holds investments in several Australian and North American portfolio companies. The target, Advanced Navigation, develops AI-powered robotic and navigation technologies for defence, land, air, sea and space applications. It combines AI, software and sensor technology to provide positioning services where GPS is unavailable. Advanced Navigation primarily supplies inertial navigation systems, acoustic navigation systems, and underwater robotics/vehicles. Its products are usually sub-components and are primarily supplied to systems integrators rather than end users/consumers.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given: - the size of the interest in AdNav being acquired by Movac is expected to be small - there is no horizontal or vertical overlap between Movac and Advanced Navigation in the supply of AI-powered navigational systems.

	In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.
