

Notification Waiver Determination

ReDirect Holdings - Echo Solve

Acquisition	ReDirect Holdings Pty Limited (ReDirect) applied for a notification waiver in respect of its proposed acquisition of 100% of the share capital in Echo Solve Pty Limited (Echo Solve), including Echo Solve's contaminated waste treatment facility business, as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	27 August 2026

Parties to the Acquisition	The acquirer, ReDirect, is a resource recovery and recycling business operating principally in New South Wales. Its activities include collecting, processing, and recycling waste materials (including wood, metal and drill mud) that would otherwise be landfill, and producing recycled materials for re-use. As part of ReDirect's drill mud arm of the business, it owns and operates a drill mud facility located in Wetherill Park, New South Wales. ReDirect also has a small liquid waste recycling facility in Kelso, New South Wales. The target, Echo Solve, is a contaminated waste treatment facility located and operating principally in Altona, Victoria. Echo Solve conducts contaminated soil treatment operations via thermal desorption, drill mud disposal, hydro-excavation and soil washing. The parties both supply contaminated waste treatment and remediation services from their respective facilities.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given: - there is no horizontal overlap between the parties in the supply of contaminated waste treatment and remediation services in Victoria - there are alternative suppliers of contaminated waste treatment and remediation services in Victoria.

	In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.
