

Notification Waiver Determination

EQT Fund Management S.à r.l. – Orikan Group

Acquisition	Ulexite Group Pty Limited (Ulexite) applied for a notification waiver in respect of its proposed acquisition of 100% of the issued share capital in Ignition TopCo Pty Ltd (together with its subsidiaries, Orikan Group), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	30 July 2026

Parties to the Acquisition	The acquirer, Ulexite, is an indirectly wholly owned subsidiary of BPEA EQT Mid-Market Growth Fund (BPEA MMG). BPEA MMG is a private investment fund controlled by EQT Fund Management S.à r.l., an alternative investment fund manager. EQT Fund Management S.à r.l. is wholly owned by EQT AB (publ) (Sweden). The target, Orikan Group, is a provider of parking management, compliance, and mobility technology solutions and associated services. Its products support parking payments, digital permits, parking enforcement, infringement management, occupancy monitoring, reporting, and customer service functions mainly for local governments, universities, hospitals, airports and transport authorities. The Orikan Group also provides implementation, support, maintenance, and outsourced operational services related to these systems.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. There is no horizontal or vertical overlap in Australia between the acquirer (or its connected entities) and Orikan Group (or its connected entities), including in the supply of parking management, compliance, and mobility technology solutions and associated services. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met.

	Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
