

Notification Waiver Determination

Redwood Services Group – Concept Data and Voice Select

Acquisition	Redwood Services Group Australia Pty Ltd (Redwood) applied for a notification waiver in respect of its proposed acquisition of 100% of the share capital in each of Concept Data Pty Ltd (Concept Data) and Voice Select Pty Ltd (Voice Select) from Gary Carl Paradise, as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	3 September 2026

Parties to the Acquisition	The acquirer, Redwood, through its subsidiaries, supplies managed IT services nationally to a range of industries, including professional services, healthcare and allied health, construction and trade services, retail, education, government and not-for-profit organisations. The target entities, Concept Data and Voice Select, are currently headquartered in Adelaide. Concept Data supplies managed IT services to small-to-medium businesses. Voice Select specialises in Voice over Internet Protocol phone systems and support.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given: - the parties' combined share in the supply of managed IT services to customers in Australia is estimated to be low and the increase in share of supply arising from the Acquisition would be small - there are numerous alternative suppliers of managed IT services to customers in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified.

	The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.
