

Notification Waiver Determination

International Parking Group – car park at St John of God Murdoch Hospital

Acquisition	International Parking Group Pty Ltd as trustee for International Parking Trust (IPG) applied for a notification waiver in respect of its proposed acquisition of a long-term lease to a car parking facility at the St John of God Murdoch Hospital, as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	17 June 2026

Parties to the Acquisition	IPG is a specialist infrastructure owner and developer that owns and manages a portfolio of long-term leases over hospital car parks. It operates car parking facilities across New South Wales, Queensland, and Western Australia, with around 12,500 individual bays across those facilities. The target asset includes a new 1,128 bay multi-deck car parking facility being constructed at the St John of God Murdoch Hospital and an additional 892 at-grade car parking bays on the premises. Once constructed, the multi-deck facility is intended (alongside the at-grade parking) to serve patients, visitors, and staff of the hospital. St John of God Murdoch Hospital is a private hospital located in the southern suburbs of Perth, operated by St John of God Health Care Inc. IPG operates one other car parking facility in Perth at the QEII Medical Centre in Nedlands, which is approximately 19 kilometres' drive north from the St John of God Murdoch Hospital.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application, and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: IPG's post-acquisition share of the supply of car park operation and management services to car park owners, and of the supply of car parking services to the public in the Perth region, are estimated to be low

	b. there are alternative providers of the relevant services in the Perth region, including national providers. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
