Kirin – Jamieson Wellness

MN - 55040

Phase 1 Determination

Acquisition may be put into effect

8 November 2026

1. Determination and statement of reasons

Notified acquisition	Kirin Holdings Company, Limited (**Kirin**) proposes to acquire 100% of the issued and outstanding share capital in Jamieson Wellness Inc. (**Jamieson**) (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABZE(1) of the C*ompetition and Consumer Act 2010* (Cth) that the Acquisition may be put into effect.
Parties to the Acquisition	The acquirer, Kirin, is a company incorporated in Japan which engages in the manufacture and sale of alcoholic and non-alcoholic beverages, pharmaceutical products and natural health products worldwide through various global brands. In Australia, Kirin is primarily active in alcoholic beverages through its 100% ownership of LION PTY LTD and in natural health products through its 100% ownership of Blackmores Ltd (**Blackmores**), an Australian manufacturer and distributor of vitamins and dietary supplements. Blackmores' products are supplied under the Blackmores and BioCeuticals brands. The target, Jamieson, is headquartered in Toronto, Canada and listed on the Toronto Stock Exchange (TSX:JWEL). Jamieson is active in the manufacturing and supply of vitamins and dietary supplements, including vitamins, minerals, supplements, dietary supplements, herbal remedies, probiotics, sports nutrition products, and over-the-counter remedies. Jamieson's products are manufactured overseas. In Australia, a small range of Jamieson's products are available to consumers through its global relationship with one customer, Costco. These products are supplied under the brand names Jamieson and Youtheory.
Overlap between the Parties	Kirin and Jamieson (the **Parties**) overlap in the supply of vitamins and dietary supplements in Australia.
Reasons for determination	When making a determination in Phase 1, the Australian Competition and Consumer Commission (**ACCC**) undertakes a competition assessment and considers whether it is appropriate for an acquisition to be approved or subject to further assessment in Phase 2 in accordance with section 51ABZJ of the C*ompetition and Consumer Act 2010* (Cth) (the **Act**). In doing so, the ACCC must have regard to the object of the Act and all relevant matters, including the interests of consumers. For more information about the ACCC's approach to considering notified acquisitions, see the ACCC's merger assessment guidelines and interim merger process guidelines. In conducting its competition assessment, the ACCC has considered the information and documents that were submitted with the notification form and publicly available information. The ACCC has determined that the Acquisition may be put into effect as it considers that the Acquisition would be unlikely to have the effect of substantially lessening competition in any market. In reaching its decision, and based on the material before it, the ACCC makes the following findings.

	• the market share aggregation resulting from the Acquisition is estimated to be low • the merged firm would continue to face competition from several alternative suppliers of vitamins and dietary supplements in Australia.
Applications for review	A notifying party, or other person who has been allowed to do so by the Australian Competition Tribunal, may apply for review if they are dissatisfied with the determination. Pursuant to section 100C of the Act, applications for review of the determination are to be made to the Australian Competition Tribunal before the end of 14 calendar days after this statement of reasons was included on the ACCC's Acquisitions Register. To confirm whether there has been any application for review, please contact the Australian Competition Tribunal.

Determination made by Commissioner Woodward pursuant to a delegation under section 25(1) of the Act
