

Questionnaire: Medtronic - Scientia

MN-80100

Deadline to respond: 13 May 2026

The Australian Competition and Consumer Commission (**ACCC**) is currently assessing Medtronic plc's (**Medtronic**) proposed acquisition, via its indirect wholly-owned subsidiary Project Saint Merger Sub, Inc., of Scientia Vascular Inc. (**Scientia**) (the **Acquisition**).

For further information about the ACCC's assessment of the Acquisition, see the ACCC's [Acquisitions Register](#).

The ACCC is assessing the impact of the Acquisition on competition and is seeking your views. The ACCC invites you to provide submissions or information in response to the questions below by **13 May 2026** via email to mergers@acc.gov.au with the title *Submission re: Medtronic - Scientia*. The ACCC must complete its assessment within strict statutory timelines which also impacts the time available for consultation.

If you would prefer to speak to a member of the ACCC case team, please email mergers@acc.gov.au with the title *Request for call re: Medtronic - Scientia*. Someone from the case team will contact you to find a suitable time for a call.

Please note that:

- This request is made in accordance with section 51ABZZD(2)(a) and (c) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). This means that while the ACCC may take into account submissions or information received after the due date, it is not required to do so.
- In responding to the questions below or when providing a submission, please highlight and/or mark any confidential information and indicate why the information is confidential (as brief reasons in footnotes in your response or submission, or in a separate document such as the ACCC's [confidentiality claims template](#)). The standard terms on which the ACCC accepts confidential information are outlined at the end of this document.

Questions

In this questionnaire:

Other neurovascular medical devices refers to:

- a. catheters,
- b. stent retrievers,
- c. neurovascular coils,
- d. flow diverters,
- e. liquid embolic agents,
- f. intrasaccular devices, and
- g. aneurysm-bridging stents.

Questions for suppliers of guidewires and other neurovascular medical devices

1. Provide a brief description of your business or organisation, including any commercial relationships you have with Medtronic and/or Scientia.

2. Who are your main competitors in the supply of guidewires and other neurovascular medical devices in Australia? In your response, please include who your strongest competitors are for each type of neurovascular medical device and the reasons why.

3. Describe how procurement processes with private and public hospitals for the supply of guidewires and other neurovascular medical devices are typically carried out in Australia.

In your response, you may wish to identify:

- a. whether processes are conducted on a product line basis, or whether they can encompass a range of related product lines (i.e. both guidewires and catheters);
- b. if neurovascular medical devices are added to a panel by private and/or public hospitals, at what stage and by who are decisions made to use and pay for the relevant device;
- c. any factors that influence a physician's choice of brand when selecting a guidewire or other neurovascular medical device.

4. If the Acquisition proceeds and the merged entity offered a bundled product of guidewires and other neurovascular medical devices to private and public hospitals in Australia, describe how this offering would impact your ability to compete with the merged entity.

Questions for customers of Medtronic and/or Scientia

5. Provide a brief description of your business or organisation, including any commercial relationships you have (or have had) with Medtronic and/or Scientia for the supply of guidewires or other neurovascular devices.

6. Who are the main suppliers of guidewires and other neurovascular medical devices in Australia? In your response, please identify how these suppliers compare (e.g. in relation to price, product features, product quality).

-
7. Please identify whether any guidewires or other neurovascular medical devices supplied by Scientia or Medtronic are particularly important or a 'must have'.

-
8. Describe how procurement processes for guidewires and other neurovascular medical devices are carried out by your organisation in Australia.

In your response, you may wish to identify:

- a. whether processes are conducted on a product line basis, or whether they encompass a range of related product lines (e.g. both guidewires and catheters);
- b. if neurovascular medical devices are added to a panel by private and/or public hospitals, who makes decisions to use and pay for the relevant device, and when are decisions typically made;
- c. factors that influence a physician's choice of brand when selecting a guidewire or other neurovascular medical device.

-
9. Describe whether your organisation currently purchases guidewires and other neurovascular medical devices as a bundled package. Why or why not? In your response, please address whether guidewires are bundled with any of the following products that you procure:

- a. catheters,
- b. stent retrievers,
- c. neurovascular coils,
- d. flow diverters, and
- e. liquid embolic agents.

Questions for all respondents

10. Outline any concerns regarding the impact of the Acquisition on competition.

-
11. Provide any additional information or comments that you consider relevant to the ACCC's assessment of the Acquisition.

Confidentiality of responses

During the ACCC's assessment of a notified acquisition, the ACCC may receive information that is properly regarded as being confidential, and which is provided to the ACCC in confidence. The ACCC is committed to treating this information responsibly and in accordance with the law. The ACCC understands the importance of confidentiality to parties involved in a notified acquisition, as well as to third parties that provide information to the ACCC.

The standard terms on which the ACCC accepts confidential information are:

- there is no restriction on the internal use, including future use, that the ACCC may make of the confidential information consistent with the ACCC's statutory functions
- confidential information may be disclosed to the ACCC's external advisors and consultants on condition that each such advisor or consultant will be informed of the obligation to treat the information as confidential, and
- the ACCC may disclose the confidential information to other third parties if compelled by law or in accordance with section 155AAA of the Act. This includes disclosures made in the performance of official duties or functions, which include transparency requirements which are part of the merger control regime.

For further information on confidentiality, see the ACCC's [interim merger process guidelines](#).
