

Notification Waiver Determination

Summit Partners – Keyfactor

Acquisition	Kite Parent Holdings, LP, which is controlled by private equity funds managed and/or advised by Summit Partners, L.P. (Summit Partners), applied for a notification waiver in respect of its proposed indirect acquisition of 100% of the issued and outstanding shares of capital stock of KF Parent, Inc., which is the parent company of the Keyfactor group (Keyfactor), pursuant to an agreement and plan of merger, as described in the transaction documents provided as part of the application (the Acquisition). On completion of the Acquisition, Keyfactor will be solely controlled by funds advised and/or managed by Summit Partners and/or its affiliates.
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	16 July 2026

Parties to the Acquisition	The acquirer, Summit Partners, is an experienced private equity investor founded in 1984. Summit Partners and its affiliates seek to invest in companies focused in the technology, healthcare & life sciences and growth products and services sectors across North America, Europe and worldwide. The target, Keyfactor, is a provider of IT security and digital trust solutions specialising in machine identity management, primarily Public Key Infrastructure (PKI) and Certificate Lifestyle Management (CLM). Machine identity management is a security framework designed to control access by non-human entities to digital resources. Keyfactor's technology secures, tracks and governs non-human identities that authenticate using cryptographic credentials.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a. there is no horizontal overlap or vertical relationships between Summit Partners (or its connected entities) and Keyfactor in the supply of IT security software (including PKI and CLM software) in Australia

	b. there are alternative suppliers of IT security software (including PKI and CLM software) in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
