

Notification Waiver Determination

Igneo Infrastructure Partners – Green Squares Energy

Acquisition	Vertis Bidco Pty Ltd and First Sentier Investors (Australia) Re Ltd applied for a notification waiver in respect of Vertis Bidco Pty Ltd's proposed acquisition of Green Squares Energy Pty Ltd and the Green Squares Energy Trust (together, Green Squares Energy), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	20 August 2026

Parties to the Acquisition	The acquirer, Vertis Bidco Pty Ltd (Bidco), is an investment vehicle which will be 100% owned and operated by Vertis Energy, a company 100% owned and operated by the Australia New Zealand Diversified Infrastructure Fund (Active) (ADIF). ADIF is a fund managed by Igneo Infrastructure Partners (Igneo) and is owned by its underlying investors, largely comprised of Australian superannuation funds and institutional investors. Igneo is a global infrastructure investment manager and the direct infrastructure arm of the First Sentier Group, a global asset management organisation headquartered in Sydney. It specialises in long term investments in mature, mid-market infrastructure businesses across sectors such as renewables, digital infrastructure, waste management, water utilities, transportation and logistics, with activity spanning Australia, New Zealand, Europe, the UK and North America. Igneo 100% owns and operates Atmos Renewables Pty Ltd (Atmos), an Australian renewable energy independent power producer focused on owning, developing and operating large scale wind, solar and energy storage assets across Australia. Atmos holds a substantial portfolio of utility scale renewable generation projects distributed across multiple states, supplying clean electricity to the grid and large energy users. Igneo is also a majority investor in Clean Peak Energy Renewable Investment Trust (CPERI), a joint venture with CleanPeak Energy, which develops, owns and operates distributed renewable energy and multi-utility infrastructure assets at residential, commercial and industrial sites, including solar, battery storage and embedded network solutions supplying on-site electricity and related energy services to customers. The target, Green Squares Energy, is an Australian energy business focused on renewable energy and electricity contracting solutions. It
-----------------------------------	--

	is primarily involved in structuring and financing commercial behind the meter renewable energy projects, including power purchase agreements, and supporting investment in solar and related clean energy projects. It also owns 2 front of the meter renewable energy assets which are connected to the NEM.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given: a. the parties' combined share in wholesale electricity generation and supply in the National Electricity Market, including in renewable energy generation, is estimated to be low and the increase in share of supply arising from the Acquisition is expected to be small b. the parties' combined share in the supply of behind the meter solutions nationally is estimated to be low and the increase in share of supply arising from the Acquisition is expected to be small c. there are alternative suppliers of wholesale electricity generation to the National Electricity Market, including in renewable energy generation, and of behind the meter solutions nationally. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
