

Notification Waiver Determination

Blackstone – MRC Dickson Holdings

Acquisition	Copeland IP Corporation (Copeland), a portfolio company controlled by funds advised and/or managed by affiliates of Blackstone Inc. (Blackstone), applied for a notification waiver in respect of its proposed acquisition of 100% of the shares in MRC Dickson Holdings LLC (MRC Dickson Holdings), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	14 September 2026

Parties to the Acquisition	The acquirer, Copeland, provides heating, ventilation and air conditioning (HVAC) and refrigeration compression technologies for residential, commercial and industrial applications. It provides products and services, including residential heating and cooling equipment, commercial air conditioning solutions, commercial and industrial refrigeration and monitoring solutions, and cold chain management solutions. Copeland is a portfolio company controlled by funds advised and/or managed by affiliates of Blackstone. Blackstone is a US-based investment management firm. The target, MRC Dickson Holdings, is a US-headquartered company with global operations, primarily active in North America. Through its Dickson brand, it provides fully integrated environmental monitoring solutions. Globally, Dickson designs, manufactures and commercialises hardware devices and software solutions for the monitoring of various environmental parameters (such as temperature, humidity, pressure and CO2 levels) in regulated environments.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given:

	• there is no horizontal overlap between Copeland or Blackstone's controlled portfolio companies and MRC Dickson Holdings in Australia • there is a low risk of foreclosure or other concerning vertical or conglomerate effects resulting from exclusionary conduct, bundling or tying of products or services post-acquisition • MRC Dickson Holdings has a small presence in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.
