

Notification Waiver Determination

Jardines – I-MED

Acquisition	Jardine Matheson Holdings Limited (Jardines), via its wholly owned special purpose vehicle Kent Image Australia Pty Ltd, applied for a notification waiver in respect of its proposed acquisition of 100% of the issued share capital in Image Holdco Pty Ltd and its subsidiaries and relevant joint venture interests (I-MED), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	18 June 2026

Parties to the Acquisition	The acquirer, Jardines, is a diversified, Asia-focused investment company. Its portfolio spans property, retail, automotive, hospitality, industrial, financial services and healthcare, with operations across Asia, including in Hong Kong, Indonesia, Mainland China, Vietnam, Singapore and Malaysia. The target, I-MED, operates a number of diagnostic imaging clinics across metropolitan and regional communities in Australia and New Zealand. These clinics provide a range of imaging and diagnostic services (including MRI, CT, PET, nuclear medicine, ultrasound and x-ray) to communities, hospitals, referrers and other stakeholders. Jardines does not have any other investments in diagnostic imaging services, or investments in related businesses at different levels in the supply chain for diagnostic imaging services, in Australia.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular, there is no horizontal overlap or vertical relationships between Jardines and I-MED in the supply of diagnostic imaging services in Australia. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to

	arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
