

Sanad Services and Tikehau Capital – Revima

MN-25037

Phase 1 Determination

Acquisition may be put into effect

17 August 2026

1. Determination and statement of reasons

Notified acquisition	Sanad Services Group, owned by One Hundred and Seven Investment RSC LTD – Sole Proprietorship L.L.C. (Sanad Services) and Ace Aéro Partenaires II S.L.P. (AAP2) (an investment fund) propose to acquire Revima Holding SAS (Revima) (the Acquisition). The Acquisition would result in Sanad Services and AAP2 obtaining joint control of Revima through a joint special purpose vehicle, Dream BidCo.
Determination	The Australian Competition and Consumer Commission has determined under section 51ABZE(1) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition may be put into effect.
Parties to the Acquisition	Sanad Services supplies maintenance, repair and overhaul services for aircraft engines and related aftermarket services. Sanad Services provides these services to customers globally from its facilities in the UAE. Sanad Services is ultimately owned by Mubadala Investment Company PJSC (MIC), a UAE public joint stock company wholly owned by the Government of Abu Dhabi. AAP2 is an investment fund represented by Tikehau Investment Management SAS (TIM), in its capacity as management company. TIM is itself a wholly owned subsidiary of Tikehau Capital SCA, the parent company of the Tikehau Capital group, a France-based global asset management and investment group. The target, Revima, supplies maintenance, repair and overhaul services for aircraft auxiliary power units and aircraft landing gear systems. Revima also supplies, to a more limited extent, maintenance, repair and overhaul services for engine parts (but not for complete engines). Revima services customers globally from its facilities in France and Thailand.
Overlap and relationship between the Parties	Revima supplies some maintenance, repair and overhaul services for individual engine parts. Sanad Services supplies maintenance, repair and overhaul services for complete engines. Providers of engine maintenance, repair and overhaul services may, at times, outsource such services in respect of certain individual engine parts. However, there is no current subcontracting relationship between Sanad Services and Revima.
Reasons for determination	When making a determination in Phase 1, the Australian Competition and Consumer Commission (ACCC) undertakes a competition assessment and considers whether it is appropriate for an acquisition to be approved or subject to further assessment in Phase 2 in accordance with section 51ABZJ of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). In doing so, the ACCC must have regard to the object of the Act and all relevant matters, including the interests of consumers. For more information about the ACCC's approach to considering notified acquisitions, see the ACCC's merger assessment guidelines and interim merger process guidelines.

	In conducting its competition assessment, the ACCC has considered the information and documents that were submitted with the notification form and information from third parties. The ACCC has determined that the Acquisition may be put into effect as it considers that the Acquisition is unlikely to have the effect of substantially lessening competition in any market in Australia. In reaching its decision, and based on the material before it, the ACCC makes the following findings. • There is minimal overlap between Sanad Services and Revima and they are not close competitors in the supply of maintenance, repair and overhaul services. • Although engine parts maintenance, repair and overhaul services may be supplied as an input to engine services, the Acquisition would be unlikely to give rise to vertical effects, because there are multiple alternative suppliers of both engine maintenance, repair and overhaul services and engine parts maintenance, repair and overhaul services. Therefore, the merged entity would be unlikely to have the ability and incentive to foreclose rivals in either service offering.
Applications for review	A notifying party, or other person who has been allowed to do so by the Australian Competition Tribunal, may apply for review if they are dissatisfied with the determination. Pursuant to section 100C of the Act, applications for review of the determination are to be made to the Australian Competition Tribunal before the end of 14 calendar days after this statement of reasons was included on the ACCC's Acquisitions Register. To confirm whether there has been any application for review, please contact the Australian Competition Tribunal.

**Determination made by Commissioner Williams pursuant to a delegation under section 25(1)
of the Act**
