

Notification Waiver Determination

Capital Group – Big Post

Acquisition	Mimeca Nominees Pty Ltd as trustee for Mimeca Nominees Trust (which alongside its connected entities, trade as Capital Group) applied for a notification waiver in respect of its proposed acquisition of 100% of the issued shares in Big Post Pty Ltd (Big Post) as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	9 June 2026

Parties to the Acquisition	The acquirer, Capital Group, is a transport and logistics service provider. It supplies courier and freight services across metropolitan (including Melbourne, Sydney, Brisbane, Perth and Adelaide), regional and interstate Australia, to business and residential customers. Capital Group's operations are focussed on providing flexible access to external carrier capacity for time-critical freight, with the majority of its revenue derived from same-day metropolitan point-to-point deliveries managed via a fleet of subcontractor owner-drivers. Capital Group also supplies freight brokerage and logistics services as part of its broader transport and logistics offering. This involves warehousing services, and the arrangement and coordination of the transport of goods for customers (including linehaul, home delivery, courier, truck) by sourcing external carrier capacity from independent third parties. The target, Big Post, is a freight brokerage business operating from a single office in Melbourne. It supplies road freight transport services to customers located both within Melbourne and across other Australian locations, with a particular focus on small-to-medium enterprise customers across business-to-business, business-to-consumer and business-to-depot channels. Capital Group and Big Post both supply road freight services (including freight brokerage services) in Australia.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act).

	Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: a. the parties' combined share in the supply of road freight brokerage and road freight services to customers in Australia is low, and the increase in share of supply arising from the Acquisition would be small b. there are alternative suppliers of road freight brokerage and road freight services in Australia. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
