Notification Waiver Determination

Bridgepoint - Altano

Acquisition	SCUR-Alpha 2081 GmbH (to be renamed Galileo BidCo GmbH) applied for a notification waiver in respect of its proposed acquisition of between 85 – 95% of the share capital in, and sole control of, Altano International GmbH (**Altano**), as described in the transaction documents provided as part of the application (the **Acquisition**).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the *Competition and Consumer Act 2010* (Cth) that the Acquisition is not required to be notified.
Date of determination	21 October 2026

Parties to the Acquisition	The acquirer, SCUR-Alpha 2081 GmbH (to be renamed Galileo BidCo GmbH), is an indirect majority-owned subsidiary of Bridgepoint Europe VIII Investments S.à r.l., which holds the acquirer on behalf of certain funds managed by Bridgepoint Advisers UK Limited (**Bridgepoint**). Bridgepoint is a private asset manager, investing across private equity, infrastructure, private credit and secondaries. Bridgepoint is 100% indirectly controlled by Bridgepoint Group plc, which is listed on the London Stock Exchange (LSE: BPT). The target, Altano (together with its controlled subsidiaries, **Altano Group**) is an equine veterinary platform. It operates a network of veterinary clinics and practices across 15 countries, including 10 locations in Australia, with a primary focus on equine veterinary services.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the **ACCC**) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the *Competition and Consumer Act 2010* (Cth) (the **Act**). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition given there is no horizontal overlap between Bridgepoint (and its connected entities) and the Altano Group in the supply of equine veterinary services in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met.

	Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's guidance on notification waivers and merger assessment guidelines.

Determination made by Commissioner Williams pursuant to a delegation under section 25(1) of the Act
