

Notification Waiver Determination

Hillhouse - MGI Dobbyn Carafa

Acquisition	Ascentium AU Oxygen Holdings Limited, which is wholly and directly owned by Hillhouse Investment Management, Ltd. (Hillhouse), applied for a notification waiver in respect of its proposed acquisition of 100% of the issued shares in MGI Dobbyn Carafa Pty Ltd (MGI Dobbyn Carafa), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	15 June 2026

Parties to the Acquisition	Hillhouse is a global alternative investment manager that deploys capital across multiple strategies, including public equities, private equity, private credit, and real assets. Through its private equity arm, Hillhouse invests in long-term global opportunities across the business services, healthcare, consumer, and industrials sectors. Relevantly, Hillhouse's investments include Australian accounting, tax, advisory, corporation and self-managed super services through In.Corp Advisory (AU) Pty Ltd, Oxygen Private Clients Pty Ltd and Lumiere Private Advisory Pty Ltd. MGI Dobbyn Carafa is a Melbourne-based company that provides accounting, tax and corporate advisory services to corporate clients in Australia consisting of accounting and tax compliance, tax consulting, corporate advisory, superannuation, and audit and assurance services.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information provided in the application, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular: - there is a small horizontal overlap between Hillhouse (including its connected entities) and MGI Dobbyn Carafa in the supply of accounting, tax, and corporate advisory services in Melbourne and Australia - there are alternative providers of accounting, tax, and other corporate advisory services in Melbourne and Australia.

	The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
