

Covetrus – MWI Animal Health

MN-55037

Phase 1 Determination

Acquisition may be put into effect

8 October 2026

1. Determination and statement of reasons

Notified acquisition	Covetrus, Inc. (Covetrus) proposes to acquire 100% of the shares in MWI Veterinary Supply, Inc. (MWI Animal Health) (Covetrus and MWI Animal Health together, the Parties) from Cencora Inc. (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABZE(1) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition may be put into effect.
Parties to the Acquisition	The acquirer, Covetrus, is a global wholesale distributor of animal health products, including pharmaceuticals, nutrition, medical devices and consumables. Covetrus also supplies veterinary practice management software, including Covetrus Ascend, RxWorks, Vetlytics, VisionVPM. Covetrus is currently jointly controlled by funds managed and/or advised by TPG Inc. (TPG) and funds managed and/or advised by Clayton, Dubilier & Rice, LLC. TPG is a global alternative asset manager firm. TPG has interests in Greencross Vets, an Australian provider of veterinary services, pet services and pet retail stores (through its Petbarn and City Farmers brands). The target, MWI Animal Health, is a multinational wholesale distributor of animal health products, including pharmaceuticals, nutrition and veterinary instruments. MWI Animal Health also supplies a veterinary practice management software called Merlin.
Overlap between the Parties	Covetrus and MWI Animal Health overlap in the supply of animal health products and veterinary practice management software globally.
Reasons for determination	When making a determination in Phase 1, the Australian Competition and Consumer Commission (ACCC) undertakes a competition assessment and considers whether it is appropriate for an acquisition to be approved or subject to further assessment in Phase 2 in accordance with section 51ABZJ of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). In doing so, the ACCC must have regard to the object of the Act and all relevant matters, including the interests of consumers. For more information about the ACCC's approach to considering notified acquisitions, see the ACCC's merger assessment guidelines and interim merger process guidelines. In conducting its competition assessment, the ACCC has considered the information and documents that were submitted with the notification form and publicly available information. The ACCC has determined that the Acquisition may be put into effect as it considers that the Acquisition would be unlikely to have the effect of substantially lessening competition in any market. In reaching its decision, and based on the material before it, the ACCC finds that MWI Animal Health has limited operations in Australia and that there is minimal competitive overlap between the parties in Australia.
Applications for review	A notifying party, or other person who has been allowed to do so by

	the Australian Competition Tribunal, may apply for review if they are dissatisfied with the determination. Pursuant to section 100C of the Act, applications for review of the determination are to be made to the Australian Competition Tribunal before the end of 14 calendar days after this statement of reasons was included on the ACCC's Acquisitions Register. To confirm whether there has been any application for review, please contact the Australian Competition Tribunal.
