

Notification Waiver Determination

American Industrial Partners – Honeywell’s Warehouse and Workflow Solutions business

Acquisition	Certain affiliates of AIP, LLC. (together, AIP) propose to acquire all of the outstanding equity interests in the Warehouse and Workflow Solutions (WWS) business of Honeywell International, Inc. (Honeywell), as described in the transaction documents provided as part of the application (the Acquisition). Honeywell’s WWS business is comprised of Ibiza Holdings, Inc and Honeywell Intelligated GmbH and their respective subsidiaries (together, Honeywell WWS). AIPCF VIII Global Corp Holding L.P. applied for a notification waiver in respect of the Acquisition.
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	20 June 2026

Parties to the Acquisition	The acquirer, AIP, is an operationally oriented middle-market private equity firm based in New York, US, with a focus on the acquisition and improvement of industrial businesses. As part of the Acquisition, AIP has established wholly owned special-purpose vehicles which will be the direct acquirers of the equity in Honeywell WWS. The target, Honeywell WWS, is headquartered in Mason, Ohio (U.S) and is a provider of material handling and warehouse automation solutions. Honeywell WWS is currently owned by Honeywell, which is a US-based publicly traded multinational conglomerate headquartered in Charlotte, North Carolina, United States of America. Honeywell primarily operates in four business areas: (i) Aerospace Technologies, (ii) Building Automation, (iii) Energy and Sustainability Solutions, and (iv) Industrial Automation.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and certain publicly available information, and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular:

Notification waiver determination | American Industrial Partners – Honeywell’s Warehouse and Workflow Solutions business (WA-15023)

	a. there is no overlap between AIP, its connected entities and Honeywell WWS in the supply of material handling and automated warehouse solutions in Australia b. there are alternative suppliers of material handling and automated warehouse solutions in Australia c. Honeywell WWS has a small presence in Australia. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC’s approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC’s interim guidance on notification waivers and merger assessment guidelines.
