

Notification Waiver Determination

Ochre Health - Holdsworth House Medical Group & College Street Specialists, NSW

Acquisition	Ochre Health Pty Limited (Ochre Health) applied for a notification waiver in respect of the business and all of the assets of Holdsworth House Medical Group (HHM) and College Street Specialists (CSS), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	28 August 2026

Parties to the Acquisition	The acquirer, Ochre Health, supports independent doctors to provide general practice medical services around Australia. Ochre Health currently operates 72 medical centres and urgent care clinics located in the ACT, NSW, Queensland, Tasmania and Victoria, but currently does not operate any medical centres or urgent care clinics in the greater Sydney metropolitan area. Ochre Health Group's medical recruitment business, Ochre Recruitment, also works with hospitals and medical practices across Australia to source and place locum and permanent doctors across a range of specialities. Ochre Health is majority owned and controlled by Genesis Capital, an Australian-based private equity firm that invests in businesses operating in the healthcare sector. The target businesses, HHM and CCS, are owned and operated by Rainleigh Pty Limited, in which Genesis Capital has an existing interest. HHM operates a general practice medical clinic from its premises and CSS offers administrative services to third party specialist medical service providers. Both HHM and CSS operate out of the same building in Darlinghurst, NSW. Ochre Health and HHM both supply general practice medical services in NSW, however Ochre Health does not operate any medical centres or urgent care clinics nearby the HHM clinic. Ochre Health does not currently offer administrative services to third party specialist service providers as provided by CSS, except in relation to Ochre Health's existing general practice medical centres.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of

	competition. In particular, there is no overlap in the supply of general practice medical services, or in supply of administrative services to third party specialist medical service providers, in the local Darlinghurst area or in the greater metropolitan Sydney area. In these circumstances, the ACCC does not consider it necessary to reach a concluded view on the likelihood of the notification thresholds being met. Given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
