

Notification Waiver Determination

Quadrant Private Equity – Stanley International College

Acquisition	Swan Topco Pty Ltd (Swan Topco), through its indirect wholly-owned subsidiary Swan Bidco Pty Ltd (Swan Bidco), applied for a notification waiver in respect of Swan Bidco's proposed acquisition of 100% of the issued share capital in Stanley International College Pty Ltd (Stanley International College) from Chintalia Pty Ltd and Kaishwer Pty Ltd (together, the Vendors), as described in the transaction documents provided as part of the application (the Acquisition).
Determination	The Australian Competition and Consumer Commission has determined under section 51ABV(1)(a) of the <i>Competition and Consumer Act 2010</i> (Cth) that the Acquisition is not required to be notified.
Date of determination	18 May 2026

Parties to the Acquisition	The acquirer, Swan Bidco, is indirectly controlled by funds managed by Quadrant Private Equity (QPE). QPE is a private equity firm headquartered in Sydney, Australia, and supplying financial and investment management services across Australia and New Zealand. It typically invests in mid-market companies across consumer and retail, healthcare, business, professional and industrial services, as well as technology and tech-enabled service industries. The target, Stanley International College, is an independent institute of higher education and vocational education and training services. It employs over 200 staff and is a multi-campus institution with a presence in Perth and Adelaide. Stanley International College provides a range of vocational training, bachelor and post-graduate degrees and professional year qualifications. Quadrant Private Equity's portfolio companies do not, and have not previously, held any interests in any higher education, vocational education or training service providers.
Explanation for determination	In making this notification waiver determination, the Australian Competition and Consumer Commission (the ACCC) has considered the information provided with the notification waiver application and had regard to the factors in section 51ABV(2)(b) of the <i>Competition and Consumer Act 2010</i> (Cth) (the Act). Based on the information currently before it, the ACCC considers that the Acquisition is unlikely to give rise to any material lessening of competition. In particular, there is no horizontal overlap between QPE's portfolio companies and Stanley International College in the

	supply of higher education and/or vocational education training services. The ACCC has also had regard to the likelihood that, if the Acquisition were put into effect, the notification thresholds determined under section 51ABP(1) of the Act would apply. While the ACCC considers that the notification thresholds are likely to be met, given that material competition concerns are unlikely to arise, the ACCC has determined that the Acquisition is not required to be notified. The ACCC considers that the determination is consistent with the object of the Act and the interests of consumers in promoting competition. For more information about the ACCC's approach to considering notification waiver applications and to assessing competition effects more generally, see the ACCC's interim guidance on notification waivers and merger assessment guidelines.
